ALIF WORKSHOP

JULY 12-13 | HOUSTON, TX

TeDan Surgical Innovations (TSI) welcomes you to this year's first ALIF workshop. This workshop will include demonstrations and hands-on training from Thomas Terramani M.D., FACS and Neil Tayyab, M.D. focusing on optimizing the technique to the anterior lumbar column. Vascular and spine surgeons alike will leave the workshop with greater insights to elevate their practice and proficiency of the anterior lumbar corridor.

Preliminary Agenda:

July 12

12:00-4:00 **TeDan Portfolio Overview & Manufacturing Facility Tour**

7:00:9:00 **Dinner**

July 13

9:00-9:15 **Breakfast & Introduction**

9:15-10:00 **ALIF and the Benefits for a Spine Surgeon:** Why I choose ALIF vs. zdATP™ or Lateral - visualization for disc prep & implant insertion (Neil A. Tayyab, M.D.)

10:00-11:00 **ALIF and the Benefits for an Access Surgeon:** Why ALIF is my procedure of choice, and how I use it in my practice (Thomas T. Terramani, M.D., FACS)

11:00-12:15 **ALIF Hands-On Training:** Understand basic anatomy and positioning differences of ALIF on a model

12:15-1:00 **Lunch Break**

1:00-2:00 **zdATP and Why I Introduced It into My Practice:** Why did I develop zdATP, and how do I use it in my practice (Thomas T. Terramani, M.D., FACS)

2:00-3:00 **zdATP Hands-On Training:** Understand basic anatomy and positioning differences of ALIF and zdATP on a model

3:00-3:30 **Didactic Session**
